

Activity title: Townhall meeting on citizens inputs for 2027 budget

Convenor: Ministry of Planning and Budget in Collaboration with Kano budget working group

Date: 13th September, 2026

Venue: Islamic Center Nasarawa Local Government, Kano State

Introduction

Salisu Yusuf led the session by Introducing its objectives as follows:

It is importance for citizens to actively engage in tracking government spending, under section 10 (3) of the Kano State PFM Law 2020, citizen inputs are to collated for possible consideration in the Kano State Budget to ensure that public resources are used efficiently for the common good and the overall development of the community. By monitoring how funds are allocated and spent, citizens can hold the government accountable, reduce corruption, and promote transparency in the implementation of projects. Moreover, this process is not just about oversight but also about active participation. Citizens should be involved in the governance process by providing input on local needs and priorities. By collating inputs from the community, the government can formulate policies and budgets that address the most pressing issues.

Background

Participants from Nassarawa, Kano Municipal, Gwale, Tarauni, Gwale, Fagge, Dala and Ungogo including people with disability, traditional and religious leaders, NUT, Hisba, vigilante, Student, women and youth groups etc. were sampled to submit demands based on their respective needs. This is a tradition institutionalized by the Kano state government as a way of making the state budget inclusive and participatory.

Remarks By the Gama District Head and chief imam of Ungogo

They both appreciated the Ministry for organizing the townhall meeting, stating that such forums are central for gathering citizens' demands and assessing the implementation of government projects. they stressed the importance of tracking government project records to ensure that citizens' demands are implemented accordingly.

Goodwill Message by MoPB and BCAI

The representative from the Ministry of Planning and Budget (MoPB) welcomed all participants, including traditional leaders and community-based organizations. He explained that it is mandatory for the government to develop the annual budget every October, and that the Kano Budget Working Group has been institutionalized across the five Kano Emirates. The budget formulation process is based on revenue projections, and this townhall meeting is a significant step towards ensuring inclusive governance by collating citizens' inputs at the grassroots level. The representative also advised participants not to be discouraged if their inputs are not immediately reflected in the budget, and thanked everyone on behalf of the Honorable Commissioner of MoPB and its entire staff.

Goodwill Message by BCAI

This townhall meeting is a significant step towards ensuring inclusive governance by citizens' inputs at the grassroots level especially the role of gender-responsive Education Budgeting, and citizen participation in education frameworks its important in advancing education financing, that is we supported Teacher policy in kano state. Our work is to ensure girl child education have priorities in all what we are doing so at the end we would have a productive society, as the popular saying if you educate women, you educate society that is why we partner with Ministry of Planning and Budget and kano working group to ensure we have a significant percentage in allocation for girls and women in budget.

Main technical session citizen inputs from effected LG

A presentation by Salisu Yusuf on budget process and its importance

The presentation clarified the components and purposes of the budget as well as the significance of inclusive budgeting to make it easier for citizens to hold the government accountable for its spending.

To further engage participants, he asked an insightful question about which of the three categories of budget is the best for citizens, i.e., deficit budget, surplus budget and balanced budget. And he further elaborates what should our inputs look like focusing on specific, realistic

and community-priorities needs related to the following area of Education, Health, Water and sanitation, infrastructure, Agriculture and livelihoods and gender responsive.

Feedback from Participants

- Two participants Gwale and Nassarawa highlighted some project captured in 2026 budget were implemented while some are ongoing
- A participant proposed the creation of a CSO/CBO quarterly performance Forum to facilitate tracking of state constituency projects, which would enhance transparency and accountability in budget implementation.

Participants were grouped according to their local government to submit their inputs from the 8 LGA within kano metropolises'

Conclusion and Closing Remarks

The townhall meeting successfully facilitated dialogue between government representatives, traditional leaders, and community members. It reinforced the importance of citizen participation in the budget process and highlighted the need for effective tracking of government spending to ensure transparency and accountability. Because budget is not simply a government document it is a plan for the use of public resources to address public needs.
