Introduction

As the 2023 fiscal year draws to a close, the Kano Budget Working Group, in partnership with the Kano State Ministry of Planning and Budget, convened a Town Hall Consultative Meeting in Gaya Emirate. The primary objective of this meeting was to actively engage citizens in the process of generating, collecting, and collating their inputs into the 2024 Kano State budget. Key focus areas included education, health, agriculture, and infrastructure. Additionally, the event aimed to provide a general overview of the Kano State budget process, ensuring that participants had a clear understanding of the broader context.

Participants

The meeting brought together a diverse group of participants from nine Local Government Areas (LGAs) under Gaya Emirate. These LGAs included Gaya, Ajingi, Albasu, Wudil, Garko, Warawa, D/kudu, Gezawa, and Gabasawa. The participants encompassed a broad cross-section of the community, including traditional leaders, elderly groups, youth, women, people with disabilities, and representatives from the Ministry of Planning and Budget.

Participants were divided into groups based on their respective Local Government Areas, and templates were distributed to assist them in prioritizing their demands in key sectors, including Education, Health, Water, Environment, Agriculture, and Infrastructure. This session was closely supervised by members of the Kano Budget Working Group and representatives from the Ministry of Planning and Budget. The session concluded with the successful achievement of its intended objectives.
